Blenheim Imogen

Medium Brown (Solid Colour) - Huacaya

UKBLHBAS00164 - Evadne AA of Atlantic (Import) (BL

## **Description:**

Imogen is Emma's mother: although she is short but sturdy, she has typically produced good quality offspring larger than herself. Her fleece markings are like a Vicuna's, with a DF/LBR blanket but BG down her neck and under her tummy. She was born in 2005 and I have known her a long time, before buying her in the Blenheim dispersal sale. She is a very reliable breeder, getting pregnant first time, birthing without difficulty and producing consistently high quality offspring: the ideal female for a starter herd.

Imogen is currently spitting off.
